## BY TELEGRAPH.

### Important Fenian movements.

BUFFALO, June 1.—The reporter of the *Express*, who has just returned from a point a mile and a half below Black Rock, says that the head of the Fenian column, six hundred strong, had reached that point. Nine wagons, loaded with ammunition and arms, preceded them. They declare that they will effect a crossing before daylight. It is reported that Fort Erie, in Canada, opposite to Buffalo, will be captured by the Fenians, who are represented to be three thousand strong, two thousand of whom are said to be marching unopposed into the interior, and is said to have already cut one telegraph line.

### LATER.

BUFFALO, June 1.—Notwithstanding the vigilance of the authorities in this section, the U. S. steamer *Michigan* being under steam and having her ports open, and the fact of the city swarming with Canadian spies, several regiments of Fenians crossed over into Canada last night, including troops from Kentucky, Tennessee and Indiana, a regiment from Ohio, and one from this city at this point.

They crossed in canal boats drawn by tugs, and when nearing the Canadian side sent up wild Irish shouts and a green flag floating. Colonel O'Neil, of the 13th Regiment, of Nashville, in command at Fort Erie. A large number of persons are viewing the sight from this shore. The Fenians say that no depredations shall be committed. All the wires on the Canada side were cut except those near the Suspension Bridge. The Agent of the Associated Press has left for the scene of operations. The Fenians are reported marching towards the Suspension Bridge, twenty-two miles from here.

Boston, June 1.—Two companies of regulars left for the North this morning for Fort Warren, under command of Colonel Livingston.

A newly raised Fenian cavalry regiment, under command of Colonel JENNY, late of Mosby's guerrillas, is part of the expedition from this city. The Fenians say that General FITZGERALD will command the cavalry wing of their army of invasion; and they further say that the blow will be struck early next week, probably on Monday.

### LATEST.

BUFFALO, June 1.—The number of Fenians which effected a landing in Canada from this side, is estimated at three thousand, with accessions hourly.

They are well armed and have six pieces of artillery. It is stated that there will be a general descent on the whole frontier, and that the Fenians have altogether thirteen batteries of artillery. The leaders have telegraphed from this point to various cities to bring on reinforcements of men. Those who went from here had generally served in the Federal or Confederate armies. No fighting has occurred, or is anticipated for two days. The obstruction of the Welland Canal, cutting the Grand Trunk Railway, and moving in two columns on Montreal and Kingston, is said to be the programme. A colonel leads the troops from here, and is styled the Commander of the Army of the Irish Republic in Canada. General SWENNEY, it is reported, has crossed over with the main body, but men cross here without difficulty, as there are no U. S. troops here.

The Fenians are leaving Boston, Philadelphia, New York, and other cities.

Tonawanda, June 1, 4.30 P. M.—A great excitement prevails over a rumored invasion of Fenians—volunteers are hurrying to the supposed scene of action. It is reported that the enemy have evacuated Fort Erie, and are now marching on Chippewa. The frontier is not invaded at any other point. A regiment is to proceed to the Niagara frontier at once.

### Invitation to President Johnson.

New York, June 1.—A large number of the prominent merchants and business men of New York have extended an invitation to President JOHNSON to visit this city, some time in June, at his convenience. It is understood to be without political significance—the New York gentlemen being merely desirous of tendering the President a public reception, and introducing him to the people of the city.

### Cholera at New York Quarantine.

New York, June 1.—The Cholera at Quarantine below this city is said to be of a very malignant type, and is principally confined to the German passengers. Eighty-four cases have been admitted on board the Hospital Ship, *Falcon*, but out of which number fourteen have died, leaving seventy patients at the last accounts under treatment. A Revenue Cutter will shortly be stationed in the lower bay for the protection of quarantine vessels and prevent passengers detained there from escaping to the shore.

### Business in Washington Suspended.

WASHINGTON, June 1.—Public business is suspended to-day, in respect to the memory of the late Gen. Scott. Congress is not in session—both branches having adjourned until Monday.

### The Adams' Express Company the Government Agent.

WASHINGTON, June 1.—A contract has been concluded between the Secretary of the Treasury and the Adams' Express Company, by which the United States agrees to employ that Express Company as its exclusive agent for the transportation of all monies and securities of every kind which are to be transported from one point to another within the United States.

### News from Brazil.

New York, June 1.—The steamship *Morning Star*, from Rio de Janeiro, May 4th, has arrived. The steam frigate *Suesquehanna* left Rio April 19th, for New York.

The news from the River Plate is unimportant. There was a fearful slaughter of twelve hundred Paraguayans on the 10th of April, in an attack on the Brazilian batteries on an island opposite Alapara.

Ten thousand Brazilians crossed the Parana on the 16th of April, without opposition, and

drove in the Paraguayan skirmishers next morning, occupied Alapara, captured four guns and a flag. While the allied army was being transferred on the 19th April to the Paraguayan side of the river, the Paraguayans abandoned their camp three miles on the road to Hamañita, which cannot be held, and a speedy end of the war is anticipated.

The Imperial Assembly of Brazil had convened. The Emperor's speech attracted especial attention.

The *Santa Catharine* was blown up and twenty persons killed at Rio Grande do Sul.

Some old Silver Mines which had been worked by the Jesuits had been re-discovered.

Coffee at Rio was declining. Freight dull. Exchange on London lower.

### Mobile Market.

MOBILE, June 1.—Sales to-day fifty bales of Cotton; Middling 34c. Nominal receipts of the week 2180 against 2598; last week exports of the week 2630; stock 41,958. Gold 38 to 39.

### New York Markets.

NEW YORK, June 1.—Cotton quiet and steady. It is a partial holiday.

### GOLD.

Nothing of importance has been done to-day on Wall-street.

Gold has been sold to a limited extent at 40½ to 41. Stocks are neglected.

## LATE NEWS.

NEW YORK, May 30.—The Cunard steamship *Persia*, Captain Lott, which left Liverpool at 11 o'clock on the morning of the 19th, and Queens-town on the evening of the 20th of May, arrived at this port yesterday evening.

The steamship *St. David*, from Liverpool, May 17, via Londonderry, May 18, passed Father Point yesterday, en route to Quebec.

The news by the *Persia* is three days later.

Late papers report the departure for Havana of the new Captain-General of Cuba, Don Francisco Loreundi. He left in the Spanish frigate *Nayava* de Tolosa, on the 6th of May. His departure was delayed for a few days in consequence of the frigate having been sent to visit Malaga, Almeria and Alicante, in order, as was said by the Spanish papers, to look for a steamer that was hovering suspiciously on the coast, with the design, it was supposed, of landing arms.

Both houses of Parliament adjourned for the Whit Sunday recess in London.

In response to a requisition signed by many eminent merchants at the Mansion House, a public meeting at the Mansion House for the 24th of May, to take steps for the erection of a statue in London in honor of George Peabody.

Notwithstanding recent rumors, the London Post says the marriage of Princess Helena with Prince Christian will take place on the 5th of July.

The race for "the Oaks" was won by Tormont. Merilla was second and Ischia third.

The weekly returns of the Bank of France show a decrease in the cash in hand of over five and a half millions of francs.

A Trieste telegram of the 18th says:

"The naval authorities at this port have refused the vessels intended to convey volunteers to Mexico the clean bill of health for Tampico, without which no ship is allowed to leave the harbor."

It was rumored (May 20) that a sanguinary conflict had taken place between the Turkish and Moldavian troops.

### From New Orleans.

NEW ORLEANS, May 28.—Another crevasse a hundred feet wide has broken through below the city on the right bank, and threatens the Opelousas Railroad.

The negroes would not work yesterday.

The Red River Country and the Quachita and Etchafaluma Rivers are one vast ocean.

The Louisiana country papers give sad accounts of the floods and the distress consequent. Provisions are being constantly forwarded. The corn, cane and cotton of twelve parishes are destroyed. The work to close Boulay's Crevasse is progressing, but the floods are high.

### Decision against the Test Oath.

SAVANNAH, May 31.—In the case of Mr. Law, contesting the constitutionality of the Test Oath as applied to lawyers in the United States Courts, Judge Erskine, to-day, decided that the Act of Congress, approved January 29, 1855, so far as it was intended to apply to this case, is repugnant to the Constitution of the United States.

In boring for coal at St. Joseph, Mo., a depth of three hundred and fifty feet has been reached. Two veins of coal have been passed—one eighteen inches and the other two feet thick. Below the second vein a brine has been reached; it is said to yield eighty-three per cent. of salt. It causes as much sensation in the city as if oil had been struck.

Interesting to the community will be the reply to the following resolution, offered by Mr. PERHAM and adopted, "directing the Secretary of the Treasury to inform the House what amount of gold belonging to the United States has been sold under his authority since the 1st instant, and at what rates; also, the names of the agents through whom such sales were effected, and what rate of commission has been authorized by the Department for selling the same."

HE IS TRULY A STUMP SPEAKER, who, when talking, exhibits a mouthful of stumps. If you would keep your dental fixtures in perfect talking order, use the fragrant *Stump-Sucker* daily; the recipe is simple but sure.

### Concerning Freight.

Mr. Editor: I observed with much pleasure the note from "Merchant," in your columns two mornings since, on carrying freights on the South Carolina Railroad. The following is an extract which will afford interest on the same subject, from a mercantile friend residing in Charlotte:

"Our people have been generally in the habit of trading to Charleston, and would be glad to continue their business relations with that city, but unless there is a great modification of freights on the Roads connecting our section with the city of Charleston, I doubt whether there will be, for some time to come, much intercourse between us in a commercial point of view."

THE FREEDMAN'S BUREAU IN SOUTH CAROLINA.

To the Editor of the *Charleston News*:  
GENTLEMEN: Brovet Major-General R. K. SCOTT, of the Freedman's Bureau, makes, in his letter of May 21st, 1866, to Gen. O. O. HOWARD, the very peculiar and sweeping statement that the planters are so much convinced of the benefit, and attached to the policy, of the Bureau, as not only to uphold the policy, but to be "panic-stricken" at the suggestion of the withdrawal of its fostering care.

The writer and others, not a few, whose opinions he knows, freely admits the integrity of purpose, and propriety of deportment, of General Scott and some of his officers, which have rendered a system, utterly odious under the conduct of his predecessor, tolerable and, by contrast, most agreeable. But, that the Freedman's Bureau is a favored institution with the planters, or any considerable number of them—that it is other than a forced endurance, because endurance is the best and only policy left in a statement which is, to say the least, a moderate one, is a novelty. The lack of assiduity on the part of the planters, in running to General Steedman with complaints, proceeding much from proper pride, and not a little from personal consideration for the efforts of General Scott to blot out the stains and sins of previous mismanagement, should, however, never be mistaken for moderate approval, much less ardor of affection, for the Bureau, or nervous regrets for its removal.

A PLANTER, FOR HIMSELF AND OTHERS.

We copy the following from the *Crescent* of the 24th:

OUTRAGE BY NEGRO SOLDIERS AT GREENVILLE.—On Tuesday night an outrage, which, it is feared, may prove a murderous one, was committed at Greenville, in the grocery store of Mr. Peter Stoning. A squad of negro soldiers went into the house and one of them bought a dollar worth of articles. The fellow was about to leave without paying for them, but the son of the owner of the store, who had served him, ran from behind the counter and caught him by the coat. The father of the boy, hearing a noise, came out into the room in which he was sitting, with his sick wife. Some quarrelling ensued between the negroes and Mr. Stoning, his wife managed to leave her room, but still in time to see him shot down. She reached him with difficulty and tried to raise him up, but while endeavoring to do so another shot was fired, and the great-hearted and self-sacrificing woman received a wound which, it is feared, may prove fatal. A negro soldier named Scott has been arrested, and it is alleged that he is the sounder who did the shooting. The remainder of the squad were being looked after by the proper authorities.

DEATH OF AN ACTRESS FROM THE USE OF CHLOROFORM.—At an early hour of the afternoon of yesterday those residing at No. 141 Girod street became aware of the shocking intelligence that Mrs. Anne Morland, who lived there and was an actress at the Olympic Theatre, was found dead in her room. The cause of death was undoubtedly the use of chloroform. It was stated in evidence that Mrs. Morland was in the habit of inhaling chloroform, habitually, even on the stage. A note was found addressed to her, and the result of the inquest was a verdict that if he did not see her after the performance that he would never meet her again. It is said that they did not live happily together, and we are informed by the police that Morland was recently arrested for ill-treating his wife. It is a sad case under any circumstances.

A NEGRO YOUTH FATALLY STABBED.—A colored boy about eighteen years of age, named Tom, was stabbed near the corner of Commerce and Julia-streets, about half-past eight o'clock last night, by another colored youth, supposed to be a boy known by the name of Alfred. The wound proved fatal. Alfred, who is said to be the brother-in-law of the deceased, made his escape. Lieut. Manning and special officer Howard, of the First District police, immediately investigated the affair, but, on account of the reticence of the negroes, very little information could be obtained last night.

A MODERN MIRACLE.—FROM OLD AND young, from rich and poor, from high-born and lowly, comes the universal voice of praise for HALL'S VEGETABLE SCISSOR HAIR RENEWER.

It is a perfect and marvellous article. Cures baldness. Makes hair grow. A better dressing than any "oil" or "pomatum." Softens brass, dry and wiry hair into beautiful Silken Tresses. But, above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

Use it a few times, and PRESTO, CHANGE! the whitest and worst-looking hair resumes its youthful beauty. It does not dye the hair, but strikes at the root, and fills it with new life and coloring matter.

It will not take a long, disagreeable trial to prove the truth of this matter. The first application will do good; you will see the NATURAL COLOR returning every day, and,

BEFORE YOU KNOW IT, the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining, and beautiful locks.

Ask for Hall's Scissor Hair Renewer; no other article is at all like it in effect. You will find it CHEAP TO BUY, PLEASANT TO TRY, and SURE TO DO YOU GOOD.

## A Beacon of Health.

The good things of this world have each their appointed mission. It is the mission of HOSTETTER'S STOMACH BITTERS to prevent and relieve a great variety of ailments.

For twelve years its success as a protective and a remedy has been without check or drawback. It is strong negative evidence of this fact, that the efficacy of the article as a specific for dyspepsia, biliousness, constipation, nervousness, general debility, and intermittent fevers, has never been questioned.

As proof positive of its infallibility in such cases, the statements of public men whose names are familiar as household words, have from time been given to the world.

If its reputation is not founded in facts, then truth is a shadow, and the utterances of conscientious citizens of no more value than "dicers' odds."

And what is its reputation? Let the progress of its sales answer the inquiry. Where twenty dozen bottles of Hostetter's Bitters were sold in 1855, five hundred dozen are disposed of now.

Could public opinion be more significantly expressed than by its unparalleled increase of consumption? It seems impossible.

The preparation has been imitated. Where are the imitators? Echo answers, "Where?" To the "limbo" of things lost on earth they are all either gone or going. Peace be with them!
